

## **FEU Moves Up in The World Universities with Real Impact (WURI) Ranking**

In the World's Universities with Real Impact (WURI) Ranking 2021, Far Eastern University (FEU) achieved the 79th place in the Global Top 100 Innovative Universities. The university climbed the international rankings from last year's 91st spot.

Compared to traditional ranking systems which evaluate quantitative metrics such as the number of journal publications and employment rate of graduates, WURI evaluates universities' flexible and innovative efforts to foster a workforce that meets the demand from industry and society.

The WURI ranking also highlights the Top 50 universities in these five areas: Industrial Application, Entrepreneurial Spirit, Ethical Value, Student Mobility and Openness, and Crisis Management.

FEU currently ranks 12th on Crisis Management, 16th on Ethical Value, and 42nd on Entrepreneurial Spirit.

The FEU Institute of Technology also joined the Global Top 100-200 Rank of Innovative Universities and placed 24th on Entrepreneurial Spirit.

## **FEU Now Has Eight ASEAN University Network-Quality Assurance (AUN-QA)-Certified Programs**

Far Eastern University now has eight programs certified by the ASEAN University Network-Quality Assurance (AUN-QA). The newly minted programs are Bachelor of Science in Psychology, Bachelor of Arts in Communication, Bachelor of Secondary Education, and Bachelor of Elementary Education.

The four programs are recognized for its strengths, ability to cope with digital trends in education, and adaptability to the new normal.

These add to the University's growing list of AUN-QA certified undergraduate programs. Last November 2020, FEU earned the coveted accreditation for its Bachelor of Science in Accountancy, Bachelor of Science in Business Administration,

Bachelor of Science in Biology, and Bachelor of Science in Medical Technology programs

The AUN-QA certified programs have logically structured curriculum with Learning Outcomes aligned with the University's mission and vision. The educational philosophy and policies are articulated to both students and teachers with emphasis on student-centered learning (SCL). FEU has also invested in facilities to enrich and support the teaching and learning of these programs.

Furthermore, employment coaching, job fairs and career-oriented seminars are organized to enhance employability of students under these programs.

AUN-QA (ASEAN University Network-Quality Assurance) promotes quality higher education and collaborates with international bodies for the benefit of the ASEAN community. The network currently has 140 member institutions in the ASEAN region, with FEU being one of only nineteen (19) member institutions in the Philippines.

AUN-QA assessment certification is a crucial first step in the internationalization and standardization efforts of the University to ensure quality education for its students.
