# “Building a stronger community through exceptional healthcare”

Under the patronage of the Minister of Higher Education and Academic Research  
Prof. Bassam Ibrahim

and

in cooperation with the Association of the Universities of Asia and the Pacific.

Al-Hawash Private University will hold the First International Medical Conference  
entitled

“Innovations, New Techniques and Technologies in Medical and Health Sciences”.

22 – 26 August, 2022

The aim of the Conference is to bring together academicians, researchers and medical practitioners from around the world to present and discuss the most recent innovations and trends in various fields of medical and health sciences. It's a great opportunity to network with scholars from different countries, develop research collaborations and start new projects.

The Conference program will include educational and practical sections:

✔ In the educational part of the conference, participants will have the opportunity to present their research findings and educational practices with the local academic community in the form of oral and poster presentations.

✔ The practical part will include a variety of workshops on practical skill performance in the clinical setting, presentation and discussion of clinical cases as well as the performance of the unique, complex surgical operations in the hospital operating theaters, using the most advanced surgical techniques and technologies.
