

The 15th AUAP General Conference, November 14-16, 2022, Hosted by Daffodil International University, Bangladesh

We are pleased to announce that the Association of Universities of Asia and the Pacific (AUAP) in collaboration with the Daffodil International University (DIU), Bangladesh, will organize the 15th AUAP General Conference with the theme "Synergy between Information Technology and Quality Education in the 4IR Era". It will be held on November 14-16, 2022 at the Daffodil International University and Radisson Hotel, in Dhaka, Bangladesh. For the first time, AUAP will use the HYBRID mode of presentation.

Our education ecosystem has been disrupted!

Now that the pandemic has eased up, it is time to ponder the future of our universities past the covid-19, thus, the theme of our General Conference this year is "Synergy between Information Technology and Quality Education in the 4IR Era"

As we also prepare our students to face the challenges of the Fourth Industrial Revolution or 4IR, it is now time to meet and discuss in person the responses of our academic institutions to these challenges.

DIU invites paper presentations under several Parallel Sessions to examine the impact of quality education and information technology, in conjunction with 4IR. Education leaders, academicians, practitioners, and policy-makers will share their experiences and will come up with case-based solutions. This event aims to bring academicians, researchers, and industry practitioners to share experiences for the improvement of Higher Education and collaboratively draw the master plan to redefine the future of our education ecosystem.

On behalf of the Secretariat, I cordially invite you to participate in the 15th AUAP General Conference above. We look forward to more collaborations with people from different institutions to provide more insights that will help us in preparing the next generation of talents through knowledge-sharing in the 4IR Era.

Please find the registration link and information on the 15th AUAP General Conference as attached.
